WHAT IS CHICKEN CACCIATORE?

Chicken Cacciatore, known in Italian as *pollo alla cacciatora*, literally translates to "hunter-style chicken." This name reflects its origins as a hearty, one-pot meal that hunters would prepare over an open fire using available ingredients. Traditionally, the dish features chicken braised in a tomato-based sauce with onions, bell peppers, garlic, herbs, and sometimes wine. The slow cooking process allows the flavors to meld together, resulting in tender meat and a richly seasoned sauce.

The **BBC Good Food Chicken Cacciatore** recipe pays homage to these roots while making the dish accessible to modern home cooks. It uses simple, everyday ingredients and clear instructions, ensuring that even those new to Italian cooking can achieve excellent results. The emphasis is on depth of flavor, proper technique, and the joy of sharing a homemade meal.

The Core Components of the Dish

At its heart, Chicken Cacciatore is defined by a few key elements: bone-in chicken pieces for maximum flavor, a robust tomato base, a medley of sautéed vegetables, and a blend of Italian herbs such as oregano, thyme, and rosemary. The BBC Good Food recipe typically includes:

- **Chicken thighs or drumsticks** – These cuts remain juicy during long simmering and are more forgiving than breast meat.
- **Onions, garlic, and bell peppers** – These aromatics form the flavor foundation.
- **Chopped tomatoes or passata** – Provides the saucier body and tangy sweetness.

- **White or red wine** – Adds acidity and complexity, though it can be omitted if preferred.
- **Fresh herbs** – Rosemary and bay leaves are classic choices, often paired with parsley for garnish.
- **Olive oil** – Essential for sautéing and enriching the final dish.

The combination of these ingredients, cooked low and slow, produces a sauce that is both hearty and nuanced. The BBC Good Food version balances tradition with practicality, making it a go-to recipe for weeknight dinners or casual entertaining.

While the full recipe is available on the BBC Good Food website, here is a comprehensive walkthrough of the process, along with tips and insights to help you achieve the best results.

Ingredients You Will Need

- 8 chicken thighs or a mixture of thighs and drumsticks, bone-in and skin-on
- 2 tablespoons olive oil
- 1 large onion, finely chopped
- 2 garlic cloves, crushed
- 2 bell peppers (red or yellow), deseeded and sliced
- 400g can of chopped tomatoes
- 150 ml chicken stock
- 100 ml white wine (optional)
- 1 teaspoon dried oregano or a few sprigs of fresh rosemary
- 1 bay leaf
- Salt and black pepper, to taste
- Fresh parsley, chopped, for garnish

Preparation and Cooking Method

1. **Brown the chicken:** Heat the olive oil in a large, heavy-based pan or Dutch oven over medium-high heat. Season the chicken pieces with salt and pepper, then place them skin-side down in the hot oil. Cook for 5–7 minutes until the skin is golden and crisp. Turn and brown the other side for a further 3–4 minutes. Remove the chicken from the pan and set aside.
2. **Sauté the vegetables:** In the same pan, add the chopped onion and sliced peppers. Cook for 8–10 minutes, stirring occasionally, until softened and beginning to caramelize. Add the crushed garlic and cook for another minute until fragrant.
3. **Deglaze the pan:** If using wine, pour it into the pan and stir, scraping up any browned bits from the bottom. Let it bubble for 2 minutes to reduce slightly. This step adds depth to the sauce.
4. **Add the tomatoes and stock:** Stir in the chopped tomatoes, chicken stock, oregano or rosemary, and bay leaf. Bring to a gentle simmer.
5. **Return the chicken:** Nestle the browned chicken pieces back into the sauce, skin-side up. Cover the pan with a lid and reduce the heat to low. Simmer for 45–50 minutes, or until the chicken is cooked through and very tender. The sauce should thicken slightly during this time.
6. **Adjust seasoning and serve:** Remove the bay leaf and taste the sauce. Adjust salt and pepper as needed. Garnish with fresh parsley and serve hot.

TIPS FOR PERFECTING YOUR BBC GOOD FOOD CHICKEN CACCIATORE

Even a simple recipe can be elevated with a few thoughtful techniques. Here are some expert tips to ensure your Chicken Cacciatore turns out perfectly every time.

- **Do not skip browning:** This is not just for color. The Maillard reaction creates complex flavors that are essential to the final dish. Take your time with this step.
- **Use bone-in, skin-on chicken:** The bones add flavor to the sauce, and the skin helps keep the meat moist. If you prefer less fat, you can remove the skin after browning.
- **Let it rest:** After cooking, allow the dish to rest off the heat for 10–15 minutes. This allows the flavors to settle and the sauce to thicken further.
- **Make it ahead:** Like many stews, Chicken Cacciatore tastes even better the next day. The flavors continue to meld as it sits. Reheat gently on the stovetop.
- **Control the consistency:** If the sauce is too thin, simmer uncovered for the last 10 minutes. If it is too thick, add a splash of stock or water.

SERVING SUGGESTIONS FOR CHICKEN CACCIATORE

BBC Good Food Chicken Cacciatore is a complete meal in itself, but it pairs wonderfully with several accompaniments. Here are some ideas to round out your table.

Classic Pairings

- **Crusty bread:** A warm baguette or ciabatta is perfect for sopping up the rich tomato sauce.
- **Polenta:** Creamy polenta provides a soft, mild base that contrasts beautifully with the bold flavors of the cacciatore.
- **Pasta:** Pappardelle or tagliatelle work well, as the broad noodles capture the sauce. Alternatively, serve over spaghetti for a simpler approach.
- **Mashed potatoes:** For a comforting, hearty meal, serve the chicken and sauce over buttery mashed potatoes.

Side Dishes to Complement

- A simple green salad with a lemon vinaigrette adds freshness.
- Roasted vegetables, such as zucchini or eggplant, echo the Mediterranean theme.
- Steamed green beans or broccoli offer a light, nutritious contrast.

VARIATIONS AND DIETARY ADAPTATIONS

One of the beauties of the BBC Good Food Chicken Cacciatore recipe is how easily it can be adapted to suit different tastes or dietary needs. Here are some popular variations.

Vegetarian or Vegan Version

Replace the chicken with hearty vegetables like eggplant, zucchini, and mushrooms. Use a good-quality vegetable stock and increase the amount of beans, such as cannellini or chickpeas, for protein. The same cooking method applies, though cooking times will be shorter.

Gluten-Free Adaptation

The recipe is naturally gluten-free as written, provided you use a gluten-free stock. Serve with rice, polenta, or gluten-free pasta to keep the meal entirely free of gluten.

Adding Extra Vegetables

Feel free to add mushrooms, carrots, or celery to the sautéed vegetables. These additions enhance the nutritional profile and add new layers of flavor. Mushrooms, in particular, pair wonderfully with the tomato and herb base.

Spicy Kick

For those who enjoy heat, add a pinch of red chili flakes or a finely chopped fresh chili along with the garlic. This gives the dish a pleasant warmth without overwhelming the other flavors.

FREQUENTLY ASKED QUESTIONS ABOUT BBC GOOD FOOD CHICKEN CACCIATORE

Here are answers to some common questions that arise when making this dish.

Can I use chicken breast instead of thighs?

Yes, but be mindful that breast meat cooks faster and can dry out if simmered for too long. If using breasts, reduce the cooking time to about 25–30 minutes, and consider adding them after the sauce has been simmering for a while.

Can I make it in a slow cooker?

Absolutely. Brown the chicken and sauté the vegetables first, then transfer everything to a slow cooker. Cook on low for 6–7 hours or on high for 3–4 hours. The sauce may be thinner, so you can thicken it with a cornstarch slurry at the end if desired.

How should I store leftovers?

Cool the dish completely, then transfer to an airtight container. Refrigerate for up to 3 days or freeze for up to 3 months. Reheat gently on the stovetop or in the microwave.
