Cohen & Larson

The Purpose Driven Life is one of the most influential Christian books of the modern era, having sold tens of millions of copies worldwide and been translated into dozens of languages. At its heart lies a simple but profound question: *What on earth am I here for?* The person who penned this life-changing inquiry is **Rick Warren**, a pastor, author, and Christian leader whose work has touched countless lives across the globe. Understanding who wrote **The Purpose**

Driven Life opens a window into the book's message, its global impact, and the man whose vision transformed contemporary Christian literature.

THE AUTHOR: RICK WARREN - PASTOR, VISIONARY, AND BESTSELLING WRITER

Rick Warren was born on January 28, 1954, in San Jose, California. He grew up in a Christian home, and from an early age he exhibited a passion for ministry and a gift for communicating complex spiritual truths in accessible language.

Warren earned a Bachelor of Arts degree from California Baptist University, a Master of Divinity from Southwestern Baptist Theological Seminary, and a Doctor of Ministry from Fuller Theological Seminary. These academic credentials, however, only hint at the practical and pastoral wisdom that would later define his writing.

In 1980, Warren and his wife Kay founded **Saddleback Church** in Lake Forest, California. What began as a small Bible study in their living room quickly grew into one of the largest churches in the United States. Saddleback became a model for the “purpose-driven” approach to church life—a method that focused on aligning every ministry, program, and activity around five biblical purposes: worship, fellowship, discipleship,

ministry, and evangelism. This framework would later form the backbone of Warren’s landmark book.

Warren’s leadership at Saddleback and his growing reputation as a thoughtful, practical teacher caught the attention of publishers. He had already authored several smaller books and studies, but **The Purpose Driven Life** was his magnum opus—a work that would catapult him into the international spotlight.

The Journey to Writing *The*

Purpose Driven Life

The idea for the book emerged from Warren's own pastoral experience. He had spent years counseling people who felt lost, anxious, or directionless. He noticed that many Christians had a vague sense that God had a plan for their lives, but they lacked a clear, step-by-step way to discover and live out that plan. Warren wanted to provide a practical guide that would move believers from confusion to clarity, from drifting to purpose.

Warren wrote the manuscript over several months, often rising early in the morning to work before his pastoral

duties began. He deliberately chose a concise, direct style—what some have called “sermon-like”—to make the content easy to digest. The book is structured as a 40-day spiritual journey, with each day's reading building on the previous one. This format was intentional: research shows that it takes about 40 days to form a new habit, and Warren wanted readers to internalize the habits of purpose-driven living.

The title itself, *The Purpose Driven Life*, reflects Warren's conviction that life is not a random series of events but a divinely orchestrated journey toward meaning. The subtitle, *What on Earth Am I Here For?*, positions the book as an exploration that every human being, regardless of background, can relate to.

THE PURPOSE DRIVEN LIFE PHENOMENON: FROM OBSCURITY TO GLOBAL BESTSELLER

Published by Zondervan in 2002, **The Purpose Driven Life** quickly became a cultural and commercial phenomenon. Within its first year, it was on the *New York Times* bestseller list, and it eventually climbed to the number one spot, where it remained for many weeks. By 2007, the book had sold over 30 million copies worldwide, earning it a place among the top-selling non-fiction books of all time. It has been translated into more than 80 languages.

What explains this extraordinary success? Part of it lies in Warren's ability to speak to a universal human need: the hunger for significance. In an age of

distraction and materialism, people from all walks of life—from CEOs to stay-at-home parents—found in Warren's words a framework for reorienting their lives around something bigger than themselves. The book's 40-day format also made it suitable for small groups and church-wide studies, creating a community experience that amplified its reach.

The book's impact extended far beyond individual readers. Pastors and church leaders worldwide adopted the "purpose-driven" model, and Saddleback Church became a training hub for thousands of ministers. The book sparked a movement that reshaped how many churches think about mission, membership, and maturity. Secular media also took notice; Warren was

interviewed by *Time* magazine, *Newsweek*, and major television networks, and he was even invited to give the invocation at President Barack Obama's 2009 inauguration.

THE CORE MESSAGE: FIVE PURPOSES FOR A MEANINGFUL LIFE

At the heart of **The Purpose Driven Life** is Warren's assertion that every person was created by God for five specific purposes. These purposes are not arbitrary; they are drawn from biblical passages and organized in a memorable, practical structure:

1. **You were planned for God's pleasure (Worship):** Warren argues that our first purpose is to

bring joy to God through worship—not just in church services, but in every aspect of our lives.

2. **You were formed for God's family (Fellowship):** We were created to be part of a spiritual family, the church. Authentic relationships with other believers are essential for growth and support.
3. **You were created to become like Christ (Discipleship):** God's ultimate goal is to transform us into the likeness of Jesus. This happens through the Holy Spirit, Scripture, and life's daily trials.
4. **You were shaped for serving God (Ministry):** Every believer has unique gifts, talents, and

CONTRIVERSIES AND

represents what is meant to be used in service to others. Ministry is not just for pastors—it is for every follower of Christ.

5. **You were made for a mission (Evangelism):** God has left us on earth to share His love and message with those who do not yet know Him. Our mission is to be ambassadors of hope.

These five purposes form a cohesive framework that Warren calls “The Great Commandment” (love God and love others) and “The Great Commission” (make disciples). The book walks readers through each purpose over 40 days, providing Scripture, personal reflection questions, and practical applications.

CRITICISMS: A BALANCED LOOK

No work of this magnitude escapes critical examination. **The Purpose Driven Life** has faced a range of criticisms from various corners of the Christian and secular worlds. Some theological conservatives have argued that Warren’s emphasis on purpose and practicality can overshadow the centrality of grace and the cross. Others have questioned whether the purpose-driven model reduces church life to a formula, stifling the free movement of the Holy Spirit.

On the more liberal side, some have critiqued Warren for what they see as an overly individualistic approach to faith, focusing on personal meaning rather

than systemic social justice. Warren himself has addressed some of these concerns, particularly through his later work with the “PEACE Plan,” which mobilizes churches to address poverty, disease, illiteracy, and other global challenges.

Additionally, Warren’s relationship with political figures and his outspoken views on issues like marriage and abortion have sometimes drawn sharp reactions. Yet through it all, he has remained a steady voice calling believers back to the five purposes, insisting that the book’s message transcends partisan divisions.

It is worth noting that the book has also been embraced by many outside the typical evangelical world. Catholic and mainline Protestant churches have used

it, and even some non-Christian readers have found value in its universal themes of purpose and meaning.

LEGACY AND CONTINUING INFLUENCE

More than two decades after its initial publication, **The Purpose Driven Life** continues to sell steadily. It has been issued in multiple editions, including a study guide, a devotional, and a special edition for teens. Rick Warren has continued to lead Saddleback Church, though he stepped down from the senior pastor role in 2022 after an internal church discipline controversy that also generated considerable discussion.

The book’s legacy, however, is larger than any single author or church. It has become a cultural

touchstone—mentioned in movies, television shows, and conversations about meaning and faith. Its phrases, like “It’s not about you,” have entered common parlance. The “40 Days of Purpose” campaign spawned similar initiatives by other authors and ministries.

Most importantly, the book has answered the question “Who wrote The Purpose Driven Life?” for millions of people. They know that the answer is Rick Warren, but they also know that the message points beyond the author to a Creator who has a purpose for every life.

CONCLUSION: THE MAN BEHIND THE MOVEMENT

In summary, **The Purpose Driven Life** was written by **Rick Warren**, a pastor,

church planter, and visionary leader whose own journey of faith inspired a global movement. The book’s central teaching—that life is a mission of love, worship, community, growth, and service—has provided direction to countless readers. While the book has not been without criticism, its enduring popularity testifies to the deep human longing for meaning. For anyone who has ever asked “Why am I here?” Rick Warren’s answer, grounded in Scripture and offered in a warm, accessible voice, remains one of the most widely embraced responses of our time. Understanding who wrote The Purpose Driven Life is not just about identifying an author; it is about recognizing the power of a simple, profound idea: that our lives have a purpose, that we are

loved, and that we are here for a reason.
