SECTION 1: THE ARRIVAL OF THE HERO (LINES 1-188)

This opening section establishes the Danish lineage, introduces King Hrothgar, and describes the terror inflicted by Grendel. It sets the stage for Beowulf's arrival.

Question 1: What is the significance of the Scyld Shefing funeral at the beginning of the poem?

Answer: The funeral of Scyld Shefing establishes the theme of legacy. Scyld, a great king who arrived as a mysterious orphan, leaves with a treasure-laden ship funeral. This symbolizes that a king's worth is measured by his ability to provide for his people in life and to be remembered gloriously in death. It directly contrasts with the monsters who will leave no positive legacy. This opening also sets the standard for what a good ruler should be, which is a benchmark against which Beowulf and other kings will be measured. Understanding this opening is foundational to any **Beowulf guided reading questions answer key** because it establishes the poem's core values.

Question 2: Why does Grendel attack Heorot?

Answer: Grendel attacks Heorot because he is angered by the joy and community he cannot share. He is described as a descendant of Cain, cursed by God and exiled from human fellowship. The sound of the harp and the songs of creation from the mead-hall enrage the monster. His attack is not random; it is a direct assault on civilization, community, and the light of God. Grendel is an outcast who cannot tolerate the happiness of others, making him a powerful symbol of evil and isolation.

Question 3: How does Beowulf hear about Grendel's attacks, and what motivates him to go to Denmark?

Answer: Beowulf hears of Grendel's raids through sailors' stories. His motivation is multifaceted. Primarily, he seeks to repay a debt of honor: Hrothgar once helped Beowulf's father, Ecgtheow, resolve a blood feud. Beowulf also seeks personal glory and to prove his strength. In the heroic code, seeking out challenges to enhance one's reputation was a noble pursuit. He does not go because he is ordered, but because he chooses to demonstrate his courage and loyalty.

SECTION 2: THE BATTLE WITH GRENDEL (LINES 189-836)

This section covers Beowulf's formal introduction, his verbal sparring with Unferth, and the epic fight with Grendel.

Question 1: Describe the verbal altercation between Beowulf and Unferth. What is its purpose?

Answer: Unferth, a Danish warrior, challenges Beowulf's reputation by recounting a swimming contest that Beowulf supposedly lost to Breca. Beowulf retorts by correcting the story, explaining that he was delayed by killing nine sea monsters. This exchange, known as "flyting," serves several purposes. It establishes Beowulf's confidence and rhetorical skill. It also underscores the importance

of reputation in the heroic world. Beowulf's victory in the argument foreshadows his physical victory over Grendel. This scene is a classic feature in any **Beowulf guided reading questions answer key** as it highlights the culture of boasting and proving oneself through words before deeds.

Question 2: Why does Beowulf choose to fight Grendel without weapons?

Answer: Beowulf chooses to fight Grendel without weapons to make the contest fair and to prove his superhuman strength. He knows that Grendel uses no weapons, relying on raw power. By matching the monster in hand-to-hand combat, Beowulf demonstrates immense pride and confidence in his strength. Furthermore, he acknowledges that Grendel is protected by magic from ordinary swords, so only a display of pure physical might can defeat him. This decision highlights his understanding of his opponent and his own unique abilities.

Question 3: What happens to Grendel's arm during the fight?

Answer: During the desperate struggle in Heorot, Beowulf seizes Grendel's arm and applies a grip so powerful that the monster's sinews burst and the arm is torn from his body at the shoulder. Grendel, mortally wounded, flees to his lair in the fen to die. Beowulf then hangs the arm, claw, and shoulder from the rafters of Heorot as a trophy and a clear symbol of his victory. This act is a public display of triumph and a restoration of Heorot's honor.

SECTION 3: THE VENGEANCE OF GRENDEL'S MOTHER (LINES 837-1250)

The celebration is short-lived. Grendel's mother arrives to avenge her son, creating a new and more personal threat.

Question 1: How does Grendel's mother differ from her son as an antagonist?

Answer: While Grendel was a mindless force of chaotic evil driven by envy and spite, Grendel's mother is motivated by a specific, understandable motive: revenge. She acts according to the tribal code of blood-feud. However, her vengeance is directed at a community that justly defended itself. She is also more deliberate. She attacks Heorot, kills Aeschere (Hrothgar's most trusted counselor), and takes Grendel's arm back to her underwater lair. She is a formidable warrior in her own right, embodying the dangerous nature of maternal vengeance.

Question 2: What does Hrothgar tell Beowulf about the mere where Grendel's mother lives?

Answer: Hrothgar describes the mere as a terrifying and unnatural place. He says it is a "woe-bottom" (wæl-llāc) surrounded by wolf-slopes, windy cliffs, and frosty trees. Even stags prefer to be hunted down rather than seek refuge there. The water is murky and boils with blood at night. This description emphasizes the hellish and otherworldly nature of the monsters' home, raising the stakes for Beowulf's next challenge. It is a place of death and darkness, contrasting sharply with the light of Heorot.

Question 3: What weapon does Beowulf use to kill Grendel's mother, and why is it significant?

Answer: Beowulf initially tries to kill Grendel's mother with Hrunting, the famous sword loaned to him by Unferth. However, Hrunting fails to bite the monster's skin. In desperation, Beowulf spots a giant's sword (a "mere-prēat" or "warriors of the mere") on the wall of the lair. This ancient, massive weapon, forged by giants, is the only blade that can harm Grendel's mother. He uses it to cut through her spine and behead her. The significance is twofold: it shows that human weapons are insufficient against supernatural evil, and it ties the hero to a pre-Christian, heroic past, all while reaffirming that victory ultimately requires divine favor and sheer will.

SECTION 4: THE DRAGON'S WRATH (LINES 2200-3182)

The final act of the poem jumps ahead many years. Beowulf is now an old king, and his land is threatened by a dragon.

Question 1: What provokes the dragon's attack?

Answer: A runaway slave stumbles upon the dragon's treasure-hoard and, in fear, takes a jeweled cup as a peace offering to his master. When the dragon wakes and discovers the cup missing, it unleashes a furious rampage on the Geatish countryside, burning homes and land in revenge for the theft. This event is crucial because it moves the conflict from a personal or tribal feud to a national disaster, forcing the aged king to defend his people one last time.

Question 2: How does Beowulf prepare for the fight with the dragon, and what does this reveal about his character?

Answer: Unlike his younger self, Beowulf now prepares for battle with a shield, a sword, and a mail-shirt. He feels "no fear" but also has a fatalistic sense of his approaching death. He chooses to fight the dragon alone, without his young warriors, to protect them and to prove that he is still the greatest of Geats. This reveals a complex mix of heroism, pride, and stubbornness. He is still bound by the heroic code to face danger alone, but his preparation shows the wisdom and caution that comes with age.

Question 3: What is the role of Wiglaf in the dragon fight?

Answer: Wiglaf is the only one of Beowulf's retainers who stays to help him fight the dragon. The other warriors flee in fear. Wiglaf's loyalty is a direct contrast to their cowardice. He speaks to them, shaming them and reminding them of the gifts and honors Beowulf bestowed. He then rushes to his king's side. Together, they kill the dragon, but not before Beowulf is fatally wounded. Wiglaf represents the ideal thane—loyal, courageous, and self-sacrificing. In the end, Beowulf gives Wiglaf his war-gear and names him as his successor, ensuring the continuity of Geatish leadership. Wiglaf

is a crucial figure in this section of any **Beowulf guided reading questions answer key** because he embodies the values Beowulf taught.

KEY THEMES AND LITERARY DEVICES

To truly master the poem, one must move beyond plot and into analysis. A good **Beowulf guided reading questions answer key** will also cover these broader elements.

The Theme of Good vs. Evil

The poem presents a stark, almost binary worldview. Beowulf, God, and Heorot represent light, order, and community. Grendel, Grendel's mother, and the dragon represent darkness, chaos, and isolation. The battles are not just physical but spiritual, reinforcing the Christian-influenced morality layered over the pagan story.

The Heroic Code and Comitatus

The reciprocal relationship between a lord and his warriors (comitatus) is central. The lord provides treasure, protection, and a hall. In return, the thanes pledge absolute loyalty, even unto death. Beowulf's life is a testament to this code, and his death marks the potential collapse of his society if that bond is forgotten, as shown by the cowardly thanes.

The Use of Kenning and Alliteration

Beowulf is famous for its poetic devices. Kennings
